County of San Luis Obispo

TO: Board of Supervisors

FROM: Public Works

Michelle Matson, Traffic Engineer

VIA: Glenn Marshall, Transportation Division Manager

DATE: 8/26/2014

SUBJECT: Submittal of a resolution establishing changes to the Traffic Regulation Codes for the communities of Avila Beach, Cayucos, Nipomo, Oceano and north of Paso Robles. Districts 1, 2, 3 and 4.

RECOMMENDATION

It is recommended that the Board adopt the attached resolution amending the County's Traffic Regulation Code sections involving stop intersections and no parking zones.

DISCUSSION

The Department of Public Works received requests for action at the following locations:

Stop at Intersections

Adobe Road at Airport Road, Near Paso Robles – Adobe Road is a dead end local street which connects to Airport Road at an uncontrolled intersection north of Paso Robles. As part of an evaluation of Adobe Road, staff reviewed this location and determined that there was a need to place a stop sign at this intersection based on intersection geometry, volume and speed.

Staff recommends the Board adopt the attached resolution to establish a stop sign at this street intersection.

Establishing Restricted Parking Zones

Community of Avila Beach

Avila Beach Drive at First Street, Avila Beach - Public Works installed a traffic signal at this location in 2011 along with establishing no parking zones for intersection operations. In reviewing ordinances in the area, Public Works identified that these locations were added to an incorrect section of the code. The attached resolution modifies the existing no parking zones to include enforcement by vehicle tow-away due to adjacent traffic signal operations.

San Luis Street between San Luis Street Parkway and Laurel Street, Avila Beach – Public Works received complaints of parking on the north side of San Luis Street adjacent to the metal beam guardrail. Staff reviewed the roadway and determined that the road width from curb to curb is not wide enough to allow vehicular parking on both sides. The location of the existing centerline confirms that parking should be allowed on the south side and restricted on the north side. The attached resolution will establish the no parking zone.

San Rafael Street, Avila Beach - Public Works was contacted by Avila Valley Cal Fire and received a complaint regarding parking on San Rafael Street. Cal Fire requested additional no parking on the west side of the road at the top of the hill to allow engine access. A resident complained about parking on the east side north of First Street. Staff reviewed the roadway in both locations and determined that the road width is not wide enough to allow vehicular parking on both sides. The attached resolution will modify the existing no parking zones.

San Miguel Street, Avila Beach - Public Works was contacted by Avila Valley Cal Fire regarding parking in the fire lane on San Miguel Street. Public Works met with Cal Fire on site and determine the existing red curb needed to be extended to allow engine access. The attached resolution will modify the existing no parking zones.

Community of Cayucos

Cayucos Drive, Cayucos - Public Works was contacted by Cayucos Cal Fire regarding parking near the pier in Cayucos. Public Works met with Cal Fire on site and determined the existing red curb needed to be extended to allow engine access. The attached resolution will modify the existing no parking zones.

Community of Nipomo

Meredith Avenue, Nipomo – Public Works was notified of existing no parking signs on portions of Meredith Avenue between Story Street and seven hundred feet northwest of Story Street. These signs had been installed by subdivision construction. Staff reviewed the development plan conditions and the intent was to prohibit parking; the road width from curb to curb is not wide enough to allow any vehicular parking. The attached resolution will establish the no parking zone.

Vista Del Rio, Nipomo - Public Works received complaints of parking on both sides of the road on Vista Del Rio. Staff reviewed the development plan conditions and the intent was to prohibit parking; the road width from curb to curb is not wide enough to allow any vehicular parking. The attached resolution will establish a no parking zone from Hutton Road to one thousand one hundred and twenty feet southwest of Hutton Road.

Hill Street, Nipomo - Public Works identified a collision pattern with vehicles parked on the north side of Hill Street. Staff reviewed the site and determined that the road width from curb to curb is not wide enough to allow vehicular parking on both sides. The attached resolution will establish a no parking zone from Blume Street to six hundred feet southwest of Blume Street.

Community of Oceano

Christmas Tree Place, Oceano - Public Works received a complaint of parking on both sides of the road on Christmas Tree Place. Staff reviewed the development plans in the area and the intent was to prohibit parking on the north side; the road width from curb to sidewalk is not wide enough to allow vehicular parking on both sides. The attached resolution will establish a no parking zone from Tierra Nueva Lane to one hundred seventy five feet west of Tierra Nueva Lane.

Staff recommends your Board adopt the attached resolution to establish and revise no parking zones at these locations.

Adoption of these regulations does not require a public hearing.

OTHER AGENCY INVOLVEMENT/IMPACT

The California Highway Patrol and the Sheriff's Department will enforce these restrictions, once posted. Cal Fire established the need for restricted parking at several of the proposed locations due to their equipment operation requirement. Advisory Councils have been notified of these proposed actions.

FINANCIAL CONSIDERATIONS

Placement of signs is estimated to cost approximately \$2,500. This is within the Road Fund's budgeted amount for this activity.

RESULTS

Adoption of this Resolution will enhance County road safety and operations by assigning right-of-way and maintaining two way traffic for emergency vehicle access, thus improving community livability.
